LEGAL COMPLIANCE

Our software programs were created by our CEO, Ben Solomon, Esq., one of the top attorneys in the U.S. to assure legal compliance with state laws and customary association bylaws.

"Our owners really like using Association Portals because it is easy to use, they can vote online and watch the meetings all in one place. I also like that I can load my own content."

Jenny Little
Jade Signature Manager

"As an election monitor, this is by far the best online voting system I've seen. This reduces fraud and saves time and money for associations."

Tom Rementeria
Election Monitor
